

Maths Workshop

for Parents and Carers of children in Y4 & Y5 with a focus on
multiplication and division.

Do you sometimes feel unsure about how best to help your child make progress in maths?

Would you like a better understanding of the methods and strategies taught at St Paul's?

Do you have questions about our approach to maths teaching at St Paul's?

If you have answered yes to any of these questions then please come along to one of our workshops. You will have a go at some of the tasks your children undertake in their daily maths lessons and explore the rationale behind the methods and strategies your children work so hard to understand. Please complete the slip below to reserve your place. Many thanks.

Mrs Davies (Maths Subject Leader)

I / We would like to reserve a place at the Maths Workshop for Y4/5 Parents and Carers on **Thursday 8th December at 3.30pm – 4.45pm***

Signed..... (parent/carer of

I / We would like to reserve a place at the Maths Workshop for Y4/5 Parents and Carers on **Thursday 8th December at 5.00pm – 6.15pm.**
